

## Animals

### Crucial Knowledge

#### *I will learn that...*

- All animals are living creatures with their own feelings
- Animals have life cycles
- There are a wide variety of animals with different appearances, movements, behaviours and habitats
- Some animals are carnivores and some are herbivores

#### *I will be able to...*

- Identify the common jungle and savannah animals
- Explain that some animals hatch from eggs
- Describe what kinds of fur, feather or scales different animals have
- Explain that some animals wake up at night and sleep in the day
- Describe the different kinds of habitats that animals might inhabit and why
- Explain that some animals are endangered
- Describe some typical animal behaviours
