

Core books

Crucial Knowledge

I will learn that...

- Everybody experiences feelings and that they might be similar or different to another person
- We have names for feelings that we can use to communicate and understand our responses to situations
- We can make friends with others by showing kindness, playing together and communicating.
- Families are unique and there are many varieties of families
- Teeth care is an essential part of self-care
- Brushing teeth twice daily is a vital part of keeping healthy
- Visiting the dentist is important to keep our teeth healthy
- Germs can be washed away using soap and water, and that there are certain times when we must wash our hands, such as before eating or after visiting the toilet
- Not all germs are harmful
- Hygiene is important to help us stay clean and well

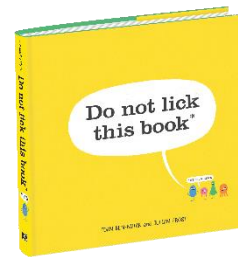

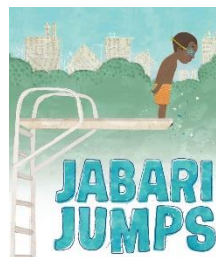

I will be able to...

- Talk about all aspects of teeth care and hand hygiene
- Explain some different kinds of feelings and when we might experience them
- Describe some ways we can be a good friend to others
- Discuss ways that families can be different from one another
