

Creatures

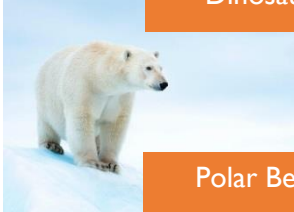

Creatures we will learn about:

Bees

Dinosaurs

Polar Bears

Lions

Crucial Knowledge

I will learn that...

- Dinosaurs did not live at the same time as people.
- Dinosaurs were different sizes and ate different foods.
- Bees make honey and help us by pollinating flowers.
- Polar Bears live in The Arctic, they are endangered.
- Lions live in The Savannah, along with hyenas, wildebeest, vultures, warthogs and marabou stalks.

I will be able to...

- Talk about the features of a dinosaur.
- Talk about what dinosaurs ate.
- Name some types of dinosaur.
- Explain how bees make honey.
- Talk about the differences between The Arctic and The Savannah.

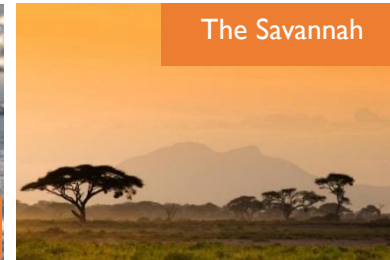

Key Vocabulary

Words I will learn

Key Vocabulary	Meaning
• Hibernate	When animals sleep through the cold Winter months.
• Carnivore	An animal that eats other animals.
• Herbivore	An animal that eats plants, nuts, fruit.
• Omnivore	An animal that eats animals and plants.
• Pollinate	To pass pollen from flower to flower.
• Habitat	The natural home of an animal.

The Arctic

The Savannah

This builds on our learning in Nursery about: The Farm, Understanding the World, Forest Friends.

This will help us when we learn about...

- Minibeasts Y2
- Bees Y5

Trips and experiences:

London Zoo
Jungle Drama Workshop

Core Songs

Prehistoric Animal Parade
Here is a Beehive
We're going to the Zoo
