

# Nursery Knowledge Organiser

## In the Garden

### Summer 1

#### Crucial Knowledge

##### *I will learn that...*

- Plants need water, sunlight, and air to grow
- Some plants grow from seeds
- The parts of a plant have names, including stem, leaf, roots, flower head
- A seed grows roots and shoots to become a seedling
- Fruits, vegetables and flowers are all grown from the earth
- Bees drink nectar from flowers
- Bees make honey in their hive
- The honey is made inside a honeycomb, made by the bees
- There are many different kinds of insects living in the garden
- There are a variety of different birds that can be spotted in the garden (British Garden Birds)
- There are a variety of creatures that can be discovered in the garden (squirrels, foxes, mice)

##### *This will help us when we learn about...*

Creatures, Growing topics in Reception  
Plants and animals in KS1  
Nature all around us in KS1 and KS2

##### *I will be able to...*

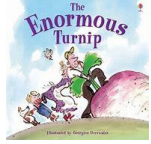

- Demonstrate an understanding of how plants grow
- Recall the main parts of a plant
- Explain how bees drink nectar
- Understand that bees make honey
- Retell the story of The Enormous Turnip
- Recall a range of insects that can be found in the garden and name some of their features
- Recall a range of creatures that can be found in the garden and name some of their features
- Explain a few ways that food is grown, including fruit on trees or bushes and vegetables in and on the ground.
- Note some names of common garden birds

##### *Additional texts or points of inspiration over the half term:*

Books to prompt discussion about growing

Books of the Week	
	Squirm Shriek Honeycomb
	Shoots Seedlings Bud
	Bad-tempered Aphid Firefly
	Whizzes Dragonfly Magnificent
	Budge Dashed Heaved
	Nectar Bloom Miracle
