

Reception Knowledge Organiser

Under the Sea

We will learn about some under the sea creatures:

Seahorses

Whales

Sharks

Crucial Knowledge

I will learn that...

- Male seahorses grow their babies
- There are different types of whales
- There are 5 oceans on earth
- There are different types of shark
- We have a problem with plastic pollution in our Oceans

I will be able to...

- Explain how plastic gets into our oceans and why that is a problem
- Name some features of whales, sharks, jellyfish and seahorses
- Name the 5 oceans
- Talk about some of the creatures that live in each ocean

Plastic pollution in the ocean

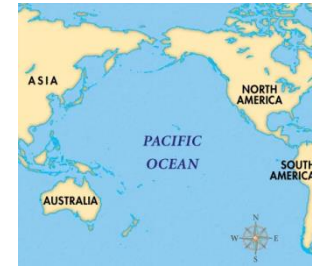

Key Vocabulary

Words I will learn

	Meaning
• Pollution	Harmful substances in our environment.
• Ocean	A very large amount of sea, divided around the earth.
• Fin	An underwater creatures flap that helps them swim.
• Flukes	The name for the end part of a whale's tail.
• Environment	Our surroundings, the world around us.
• Tentacles	The long limbs attached to jellyfish, squid and octopuses.

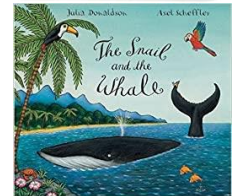

Atlantic Ocean

Pacific Ocean

Books of the Week

(Core Texts)

This builds on our learning in Nursery about: The Seaside

This will help us when we learn about...

- Coasts Y1
- Volcanoes, The Galapagos Islands Y6

Trips and experiences:

Seaside Trip

Seaside emersion day

Core Songs

The Underwater Song.

Down in the deep blue sea.

A hole in the bottom of the sea.
